There will be no large item of income until September next. By that time the money on hand at present will probably be wholly expended in the operation of the library and for the purchase of new books. The money in the maintenance account by virtue of the bequest must be used solely for the maintenance of building and grounds.

The Trustees are gratefully appreciative of the help received from the plays given by home talent and also acknowledge the receipt of funds from Hungarians of Proctor and from Mrs. John Proctor for the oil heating plant as well as the several usual gifts from Miss Emily Dutton Proctor for books.

The Trustees are glad further to state that a new copper roof was placed on the extension of the building, solely at the expense of Miss Emily Dutton Proctor and Mr. Redfield Proctor.

AUDITORS' REPORTS

I have examined the accounts and vouchers of the Selectmen, Road Commissioner, Overseer of the Poor and Treasurer of the Proctor Free Library, also the various accounts of the Town Treasurer for the year ending January 31, 1925 and they appear to be correct. The financial condition of the Town is as follows:

LIABILITIES

Overseer of the Poor order No. 377	\$309 21
Overseer of the Poor order No. 378	55 00
Overseer of the Poor order No. 379	75 00
Overseer of the Poor order No. 380	25 00
Selectmen account No. 69 (1922)	50
Selectmen account No. 62	8,000 00
Selectmen account No. 190	4 25
	\$8,468 96

RESOURCES

Due from collector 1924 Gen. Account	\$195 00

Balance in General Fund	1,242 69
	\$1,512 69
Net liabilities January 31, 1925	\$6,956 27
In addition to the above there are balances:	
In the highway fund (deficit)	\$55 27
In the permanent highway fund	309 62
Net	\$254 35

which cannot be used for any but highway purposes and this cannot be classed as assets in reduction of debt.

Amount to be provided by Town tax I estimate as follows:

Interest	\$400 00

Expenses of keeping the poor	2,200 00
Current expenses	3,000 00
Transfer to highway account	1,000 00

WALLACE M. FAY,
Auditor.

REPORT OF HEALTH OFFICER

For the year ending with date of this report the community has been freer from the contagious diseases than in several years past.

Scarlet fever is the only one of the serious communicable diseases that has appeared to any extent. These cases, although they were mostly mild and without complications, have caused a great deal of inconvenience to the families quarantined.

It is expected that in the near future it will be possible to prevent this disease by immunizing children that show susceptibility to it. This can now be done in the case of diphtheria. If parents would insist that their children be protected against diphtheria now, and later, as we hope they may be, against scarlet fever it ought to be possible to practically stamp out these two diseases with their dangers and discomforts.

The following is a list of the reportable diseases and of the families quarantined for each disease:

	Families Quarantined	Cases Reported
Scarlet fever	13	13
Erysipelas	1	1
Measles	1	1
Chicken pox	26	68
Whooping cough	17	19
Mumps	4	5

During the early part of the school year a general vaccination against small pox was carried out among the school children not previously vaccinated. This was under the direction of Cavendish House.
